

### Removal

---

- 1 Insert an awl from below between ornamental molding and cover on rear pillar. Using the awl, press cover rearward to form a bulge.

- 2 Insert plastic wedge or similar in bulge and press cover out of clips.

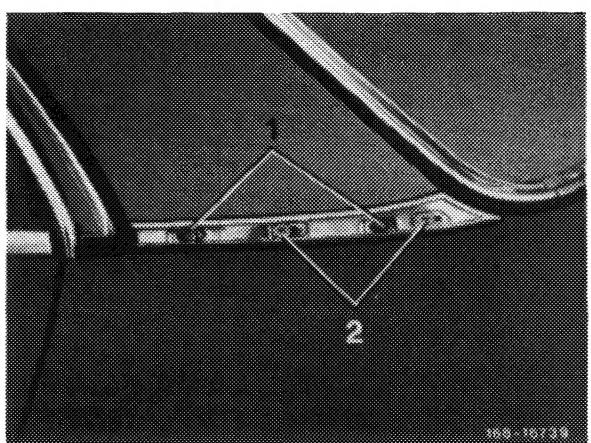

- 3 Unscrew ornamental strip.

### Installation

---

- 4 Screw on ornamental strip.
- 5 Clip on cover.

- 1 Ornamental strip securing screws
- 2 Clips for cover
